Yealink DECT IP Phone Solution
Bring Scalability to Cordless Communications

Making phone calls while on the move is a vital part of work in various business segments such as warehouses, retails, restaurants, factory sites, SOHOs and SMEs. The Yealink DECT IP Phone Solution is specifically designed to power up your on-the-go business with its sophisticated HD voice, robust battery and 50-meter indoor/300-meter outdoor coverage.

Yealink's comprehensive and sophisticated wireless DECT system comprises multiple phone models: the entry-to-mid level W52P and W53P pack essential features and the premium-level W60P features an advanced design while the W41P is geared towards personal desktops and the CP930W hosts audio conferencing. Customers can easily choose the phone that meets their requirements and supports their wireless office.

Ecosystem

· The Yealink W60B is a powerful scalable DECT Base that supports up to 8 handsets, 8 SIP accounts and 8 concurrent calls. Equipped with robust hardware and rich features, it perfectly caters to your busy small-to-medium-sized office.
· Compact as it is, the Yealink W60B DECT Base works seamlessly with the entire Yealink DECT handset range and repeater.
· It also supports efficient provisioning and mass deployment with the Yealink Redirection and Provisioning Service and Over-the-air Boot Mechanism. Zero touch provisioning has never been easier.
